Health Savings Account

Charting a path to financial wellness

Health Savings Account

Health Savings Accounts (HSA) are becoming one of the most versatile tools in an employer's overall health care benefits portfolio. HSAs are one of the best ways for employees to save for everyday, and unexpected future medical expenses. HSAs are also one of the most tax-efficient benefits available to participants and can be a valuable part of an employee's long-term savings and retirement strategy.

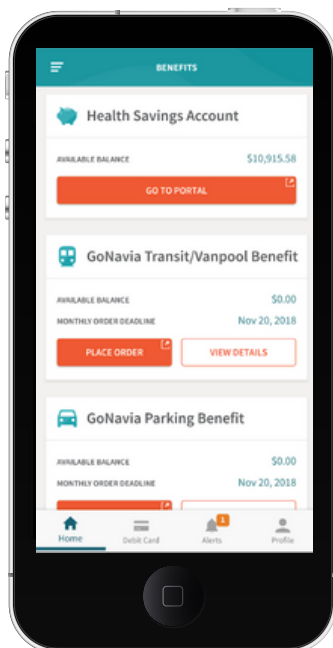

Common challenges

An HSA in your benefits portfolio gives employees access to a valuable long-term tax-advantaged benefit, yet management can be challenging. Older, first-generation HSA products are often beset with the following challenges:

- Payment tools only work with the HSA (no other benefits)
- Limited or no choice of banking partners
- High minimum balance requirements to invest
- Tightly-coupled to one insurance plan
- Cumbersome administration
- "Pass the buck" customer service responses

Key benefits

- Financial flexibility and choice
- Effortless administration
- Low investment threshold
- Versatile, easy payment tools
- Works with any high deductible health plan
- 100% US-based, live customer support

The mobile app and debit card are the predominant forms of payment for HSA account holders. The tools provide the quickest fund distribution methods available, and are usable across multiple benefits.

Flexible Spending Account

Guiding employees to simple and effective tax savings

Flexible Spending Account

Flexible Spending Accounts (FSAs) help employees save up to 40% on health and dependent care expenses. For employees enrolled in traditional health plans, health care FSAs are used to pay for prescription drugs, co-pays, deductibles, and other out-of-pocket costs. Employees enrolled in qualified HDHPs can use limited-purpose FSAs for vision and dental expenses, thereby maximizing their HSA savings. And dependent care FSAs are great options to save and pay for child care.

Common challenges

FSAs are a valuable employee benefit, yet changing regulations and technologies make FSAs complex to manage. Common challenges we hear include:

- Slow/"no tech" claim reimbursement
- Payment card only works with the FSA
- No coordination with other health benefits
- Confusing or inflexible options for handling year-end run-out and carry-over balances
- FSA is tightly coupled to one health plan; doesn't work well with other plans or for retail purchases
- Cumbersome administration
- "Pass the buck" customer service responses

Key benefits

- Recurring claims processing
- FlexConnect
- MyNavia mobile application
- Single-solution debit card
- Participation growth campaigns
- 100% US-based, live customer support

Health Reimbursement Arrangement

Configurable technology for almost any plan design

Health Reimbursement Arrangement

A Health Reimbursement Arrangement (HRA) is an employer-funded plan that reimburses employees for medical expenses not covered by company-sponsored insurance. HRAs are popular with employers who want to create targeted and highly specific health plan designs that meet the needs of their employees. Health plan deductibles, vision, and dental costs are typical covered items under an HRA plan. If an employer offers an Individual Coverage HRA (ICHRA), the ICHRA can also reimburse individual health insurance premiums or Medicare premiums.

Common challenges

An HRA gives employers maximum flexibility in assisting their employees with non-insured medical costs, but older platforms often fall short of being effective. Common challenges we hear include:

- Labor-intensive manual tracking of deductible levels to determine whether or not to reimburse
- Manual integration with health insurance plans
- Employees don't understand their plan
- Claim adjudication and payment rules are complex, requiring knowledgeable and frequent communication
- Undependable service responses from administrators, banks, and insurers

Key benefits

- Configurable plan designs
- Dedicated HRA service team
- Participant plan education
- MyNavia mobile app
- 100% US-based, live customer support

Businesses with a HRA vs. a group plan can save between 27% and 52%, depending on coverage status.

Wellness Programs

Reward your employees and they'll reward you back

Wellness programs

Wellness programs continue to grow in popularity with employers looking to offer positive incentives to employees. Employers can offer reimbursements on activities and programs such as gym memberships, fitness trackers, healthy food at the office, nutrition and weight loss programs, and other popular activities that promote health and a positive environment at the workplace. The payback on wellness programs can be significant – less absenteeism, lower health premiums, and shorter recruiting cycles.

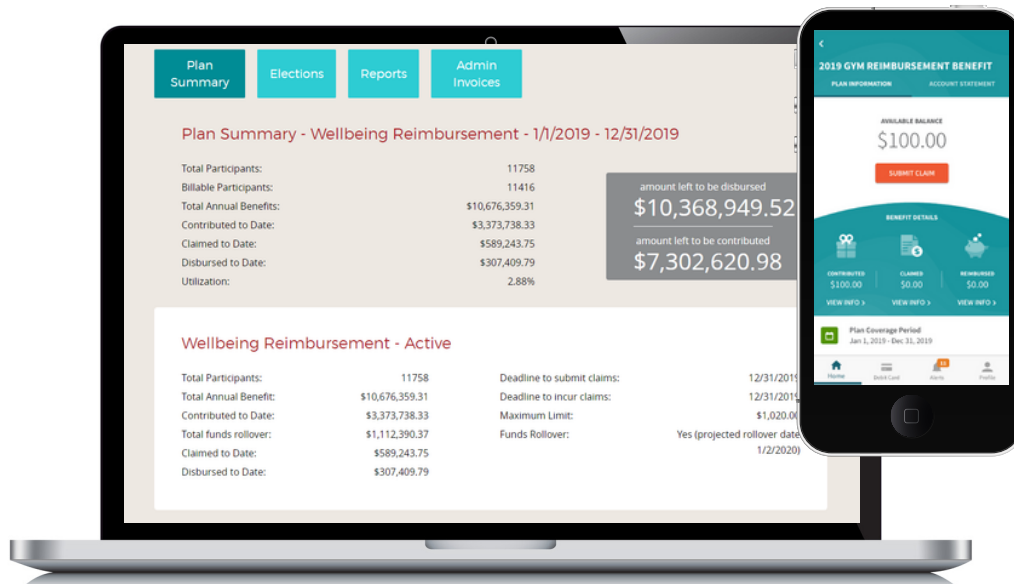

Common challenges

Effective wellness programs can reduce healthcare costs and aide in recruitment and retention. However, lack of program awareness and poor management often derail wellness programs. Common challenges we hear include:

- Wellness plans that don't align with employee goals
- Limited awareness of plan availability and offerings
- Inflexible reimbursement schedules
- Low/no monitoring and reporting on plan utilization
- Poor ROI due to low participation rates

Key benefits

- Employee engagement
- Configurable plan designs

COBRA Administration

Complete health options for people who need it the most

COBRA Administration

At Navia, we look at COBRA as an opportunity to serve people at what is often a critical time of need. At the same time, we offer a comprehensive range of services that eliminate work and risk for our employers. Navia's COBRA product is a full-spectrum solution including paper/electronic notifications and reminders, payment servicing, health carrier enrollment management, status reporting, and superior customer service.

Common challenges

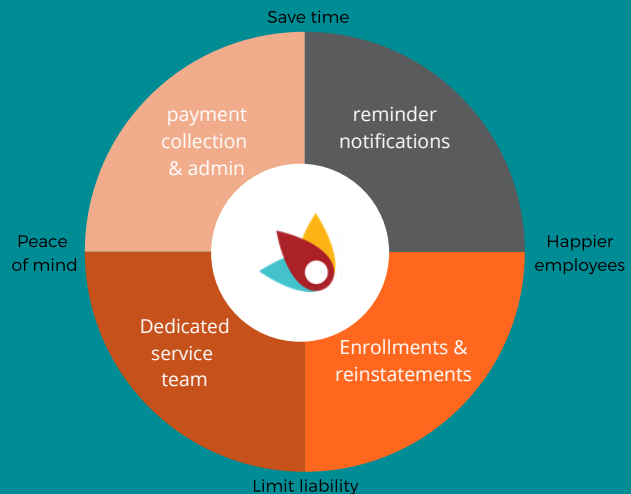

Many COBRA administrators leave significant, ongoing work for the employer. Common challenges we hear include:

- Making sure plans stay in compliance with COBRA regulations
- Tracking individual COBRA timelines for multiple qualified beneficiaries (QBs)
- Capturing elections from employees continuing coverage
- Collecting/recording premium payments each month
- Making sure the carrier has the most up-to-date records regarding the QBs' coverage
- Reinstating coverage for employees who retroactively pay their premiums
- Keeping QBs informed on their state-specific continuation requirements (CalCOBRA, etc.)

Key benefits

- Automated payment admin and reminders
- ANSI 834 health insurer integration
- Online platform for employers/beneficiaries
- On-demand status and reports
- Open Enrollment packets for participants
- A dedicated COBRA customer service team

COBRA administration is more than sending notices. Navia provides it all: payment collection and administration, plan enrollments and reinstatements, reminder notifications, and direct service to employers and beneficiaries.

Automated enrollment

Stop wasting time managing insurance integration

Where supported, Navia delivers ANSI-standard 834 health enrollment files directly to insurers, speeding up enrollment of beneficiaries and ensuring data quality and security.

Online, fully automated platform

Navia's solution is fully online and automated. Employers can administer and check the status of their beneficiaries directly, and beneficiaries can manage their benefits and payments without relying on mail or faxes.

Superior customer service

Eliminate difficult phone calls with QBs

Navia has a dedicated COBRA customer service team. Beneficiaries contact us directly with their questions; removing the ongoing support burden on employers.

3 COBRA MISTAKES THAT CAN COST YOU MONEY

Non-compliance

There are two main compliance mistakes with a big price:

1. ERISA \$110/day penalties per qualified beneficiary for failure to provide notices within COBRA timeline
2. Excise tax \$100/day per qualified beneficiary for failure to comply with COBRA

Incorrect rates

Rates are sent to the qualifying beneficiary to help them decide on COBRA election. If the quoted rate doesn't align with what the carrier is billing the employer, there is no recourse to recoup missed funds.

Sending rate change notifications late

COBRA requires a 30 day rate change notice to the qualified beneficiary. If notices don't go out 30 days in advance, the qualified beneficiary can legally pay the old rate for 30 days after the notices go out.

COBRA product features

Navia's clients have access to industry-best features and capabilities:

Employers (Navia manages everything below)

- Send all COBRA notifications to QBs
- Process all COBRA elections
